

## Negro Southern League Rosters

The following rosters are provided by William J. Plott and appear in his book: The Negro Southern League: A Baseball History, 1920-1951.

Author's Note: These rosters were painstakingly compiled from hundreds of newspaper articles and game reports, supplemented by many other resources including the internet. A question mark after a name or position indicates that there is a likelihood of correctness although the information was unconfirmed. If another name follows in parentheses it indicates that both names appeared in contemporary accounts with no clear determination of which was correct. The following abbreviations are used throughout: c, catcher; p, pitcher; rhp, right-handed pitcher; lhp, left-handed pitcher; 1b, first base, 2b, second base; 3b, third base, ss, shortstop; inf, infield; of, outfield; rf, right field; lf, left field; cf, center field; util, utility; capt, captain; and x, position unknown. In the case of league officials, the abbreviation NA is "not available."

Mascots separated by a slash indicate that contemporary reports often referenced both names with no clear determination of which was correct.
